</thead>
<tbody>
<tr>

<td>Explicit teaching of techniques</td>
<td>Applying knowledge, skills and techniques</td>
</tr>
</tbody>
</table>

At the end of this block, pupils will ...

<tbody>
<tr>
<td></td>
<td>Combine drawing techniques, making informed decisions based on knowledge of what could happen</td>
</tr>
<tr>
<td></td>
<td>Transfer and enlarge an image</td>
</tr>
<tr>
<td>Lines can be used to suggest harmony</td>
<td>Work in the style of an artist</td>
</tr>
</tbody>
</table>

In this block, pupils will learn a new technique called *subtractive drawing*. They will combine this with previously learned drawing techniques. In Lessons 2 and 3, they will look at the work of Hundertwasser. Using organic lines and spirals, along with bright colours and overlaying, pupils will create abstract landscapes.

Y5 Drawing and Painting – Block A

Pupils will be able to:
• refine drawing skills to focus on lines and details
• make detailed thumbnail drawings using a pencil or paint

Prior Learning

• understand that abstract art is more about shape, colour and expressing feelings than being a realistic depiction
• make secondary and tertiary colours

Art History:
Friedensreich Hundertwasser (1928 – 2000)
Friedensreich Hundertwasser was born Friedrich (Fritz) Stowasser in Austria in 1928. He returned to the devastation of war-torn Vienna after WW2 ended. Buildings were destroyed and the streets were full of potholes and bomb craters, filled with rainwater. New life had started to emerge, there, in the puddles, where the larvae of insects and tadpoles swam. Creeping their way into the light from dusty cracks, were tender shoots of plants and grass. This inspired Hundertwasser and he saw it as a sign of hope. Protecting and preserving nature became a life long interest for this artist. Hundertwasser was an architect as well as an artist. His work is known for bright colours and quirky designs. He didn’t like straight lines and this can be seen in the buildings he designed as well as in his paintings. Hundertwasser stated, “In nature there are no straight lines drawn with a ruler.”
Lesson 1 looks at portraits by Frank Auerbach.

## Core Knowledge

<table>
<thead>
<tr>
<th>Core Knowledge</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>subtractive drawing (working in the negative)</td>
<td>Subtractive drawing or drawing in the negative is a technique where a media is intentionally taken away from the surface of the canvas or paper, e.g. an eraser or rubber is used as the drawing tool to remove chalk, pencil or pastel – these lines then reveal the intended image the artist wants to make.</td>
</tr>
<tr>
<td>organic</td>
<td>Organic means relating to naturally occurring objects and materials.</td>
</tr>
<tr>
<td>harmony</td>
<td>Harmony is an attractive combination of related things. In art terms, this could be using colours and shapes that work well together and produce an effect pleasing to the eye.</td>

<td>1. Experiment with line and mark making using a range of materials and techniques</td>
<td>Subtractive drawing (working in the negative) using an eraser to reveal white</td>
<td>Introduce the Knowledge Note and discuss new vocabulary with pupils. Pupils will be expected to use this vocabulary as they talk about their work or respond to questioning. Look at art produced by Frank Auerbach. Cover small pieces of paper with charcoal, black chalk or pastel and some areas with black oil crayon. Experiment with making marks on these surfaces, using an eraser as the drawing tool. Try creating surfaces with pencil, graphite or conte and use an eraser to remove marks. Next, create a surface on a larger piece of paper (A4 or A3). Draw a landscape or a view from a window, including trees, buildings and plants. Then, explain to a partner what is meant by subtractive drawing.</td>
<td>Can draw using the subtractive method and give a concise explanation of what it is to a partner</td>
</tr>
</tbody>
</table>

2. Understand how to use a viewfinder to select a portion of an image or view | Enlarge and transfer an image from a small drawing Areas need to be blocks of colour, not shaded Line and movement is emphasised with black | Look at landscape pictures by Hundertwasser. Use a small viewfinder to select a section of one of his images then draw it into sketch books. Focus on the strong black lines. This should be repeated four or five times more using a different part of the picture. Select one of the viewfinder images drawn and, using pencil, enlarge it to fit a 20cm x 20cm square. Use paint to fill in the spaces drawn. Overlay with a piece of acetate the same size. Use a permanent black marker to trace the lines seen onto the top of the acetate. Place each of the completed 20cm x 20cm squares from Lesson 2 together to compile a collaborative abstract piece of work. Complete Vocabulary Task 1. | Can transfer and enlarge an image Can select appropriate colours and paint within the border of each area Can trace black lines |

<td>3. Know how to transfer an image</td>
<td>Abstract art – a way to communicate an image or idea beyond the boundaries of reality</td>
<td>Create an abstract landscape in the style of Hundertwasser, using A3 paper or larger. Pupils can use images of scenes provided as a guide, or create their own, or use scenes linked to <em>Shackleton’s Journey</em> or <em>Secrets of a Sun King</em> (this may affect colour choices). Transfer the image of a landscape using light pencil marks. Use paint to create areas of bold, bright colours. This time, omit the acetate. Go over the outlines drawn with black marker. Complete Vocabulary Task 2.</td>
<td>Can work in the style of Hundertwasser Can make comparisons between their own work and others’ (including artists) Can follow a series of sequenced steps</td>

### Questions for assessment

Task 1:
These adjectives could be used to describe the strength of a colour. 
Sort these adjectives into two groups. 
Each group needs to contain adjectives that have a similar strength of meaning.

<table>
<thead>
<tr>
<th>intense</th>

Exploration: Which words would you use to describe the work of Hundertwasser? Write some sentences to describe the colours, use of line and shape and pattern. Use some of the adjectives you have sorted in your sentences.

Task 2:
Answer these questions about the techniques you have been using. 
Explain your answers to a partner and then write your responses.

<table>
<thead>
<tr>
<th>What does subtractive drawing mean? Explain this technique.</th>

<tbody>
<tr>
<td>How do you feel about the effects you have created using the subtractive drawing technique?</td>
